**Subject:** No ATV's

To Whom It May Concern:

I am considered an "Out of Towner" which means I currently see ATV use in my area. Frequently!!!!

I often see adults and children driving with no helmets, flags or lights - going WAYYYY to fast on rather dangerous roads with lots of traffic –

While passing this vote may be of interest (\$) for "some" business owners, its really not the direction Dyersville should go.

While I see lots of petitions around town, I cannot locate a place to voice the concerns of citizens that do NOT encourage this - Even if there was, I am sure we would be shamed for not going along with the general population.

As an employee of Dyersville business, and frequent consumer of the Dyersville business' ....I can tell you there is already way too much congestion in the area, especially downtown where parking brings even more issues.

If this is passed, it would only bring more traffic issues, with already existing obstacles - and not to mention the TONS of dangerous opportunities.

Let us not forget the families who have lost loved ones from these non vehicle atvs!

Thank you for your time,

A concerned citizen
