Honorable Mayor Heavens  
Dyersville City Council Members

Greetings All,

At the 2021 Annual Meeting of the Board of Directors of Dyersville Industries, Inc., held on February 2, 2021, the board directed me by unanimous vote to express our support for the Dyersville City Council adopting a UTV ordinance for specified routes in the community.

After thoughtful discussion, it is our belief that with safety requirements included in the ordinance, such as seatbelts, turn signals, registration, age limits, etc, this is certainly less of a safety concern than mopeds and other vehicles, which are currently allowed on all roadways.

Additionally, we appreciate your consideration to accommodate further economic benefits to some of our local businesses that UTV access will undoubtedly create. With all of the investment and focus on downtown revitalization, a more active downtown is key to leveraging our work.

As always, we feel we are very fortunate to have such a forward-thinking council and appreciate our collaboration in working with the City of Dyersville to make it a great place to live, work and play.

Respectfully for the Board of Directors,

Jacquie Rahe
