Subject: arv/utv

Just wanted to voice my opinion on the atv/utv usage in the city limits. I am not for it, these machines were not designed for being used as (vehicles), they are louder and more dangerous than regular vehicles. With the traffic we have in town and the hopefully increased traffic with developments at the field of dreams I don't think they would be a good mix. If they want to drive (open air) vehicles then buy a convertible or jeep and pay the taxes and registration fees. Thanks for your time. Dave Klostermann 1335 11th ave. s.e.

Subject: atv/utv

just wanted to send a note that I do not support the idea to allow atv/utv usage in the city limits. They are loud, not made for road usage and I don't think they would be a good mix with the current traffic we have in town. Hopefully with more tourism traffic with the field of dreams it would not go with that. Thanks. Dave Klostermann 1335 11th ave. s.e.
