The water in the areas being flushed may become discolored for a short time. If this happens, let the water run until it clears up – should be less than 5 minutes.

We are asking residents to refrain from doing laundry the day that their area is being flushed due to the possibility that the water may become discolored.

We are also asking the residents to bypass their water softeners the day that their area is being flushed to prevent the possibility of the resin being moved into their water pipes.

We would like to thank our customers for their time and understanding of the City's needs to maintain their infrastructure.

If you have any questions, please contact City Hall at 875-7724
