

Bi-County Ambulance Receives DRA/Mystique Grant and Acquires Power-Load System

With the assistance of a grant in the amount of \$12,000 through Mystique Casino/DRA Bi-County Ambulance acquires 2 Power-Load Systems. The system was recently purchased and installed on both of Bi-County's fleet ambulances. This system allows the cot and patient to be lifted and lowered into and out of the ambulance through the use of an electrical lifting system. The system greatly improves operator and patient safety. It greatly reduces the spinal load and traumatic injuries of Bi-County's volunteer members through the loading and unloading process of patients. The total project cost was \$25,000.00.
